Summary Comment (maximum 100 words):

The site is 142 and 123

I object to you building on this field for various reasons. Firstly there is a horse in that field that is good for the kids as there is a school nearby and calming for when people go for a stroll and kids find great pleasure of seeing the horse.

It is a small village that doesn't even have pavements now in certain areas to keep people and kids safe now walking so how would building more houses contribute to that. There is no gas at present as they can't cope, so how will they be able to supply others.

Local Development Plan 2018 – 2033 Preferred Strategy: Vision and Objectives

I object to you building on this field for various reasons. Firstly there is a horse in that field that is good for the kids as there is a school nearby and calming for the kids and when people go for a stroll and kids find great pleasure of seeing the horse. I live in Llandudno and make the journey specially to see these horse with my kids as we have friends that live in the village.

The village will start looking over developed and houses just squashed in that probably be of small spaces to live in with no decent gardens for kids to play in either.

Also there is currently all ready issues with travelling in and out of Llysfaen when there is bad weather with drains and even more risk when there is snow. So surely adding more conjection to the area with more risk involved.

There is currently not enough Doctors and Dentist or Vets in the area to supply the need for the residents that live there currently and surrounding areas and seem foolish to make the demand more when they all ready under pressure.

The is not enough shops to supply the need of things in the local area for example corner shop and take aways.

I would appreciate if you would take this in consideration as it will effect the lives of the people living there tremendously.

Local Development Plan 2018 – 2033
Preferred Strategy: **Proposed Level of Growth**

The Preferred Strategy will make provision for a level of growth comprising of 12 – 14 ha of employment land to accommodate a forecasted 1,800 new jobs. This will be supported by land for 5,150 new homes.

Do you have any comments to make on proposed levels of growth?

Preferred Strategy: **Proposed Spatial Strategy**

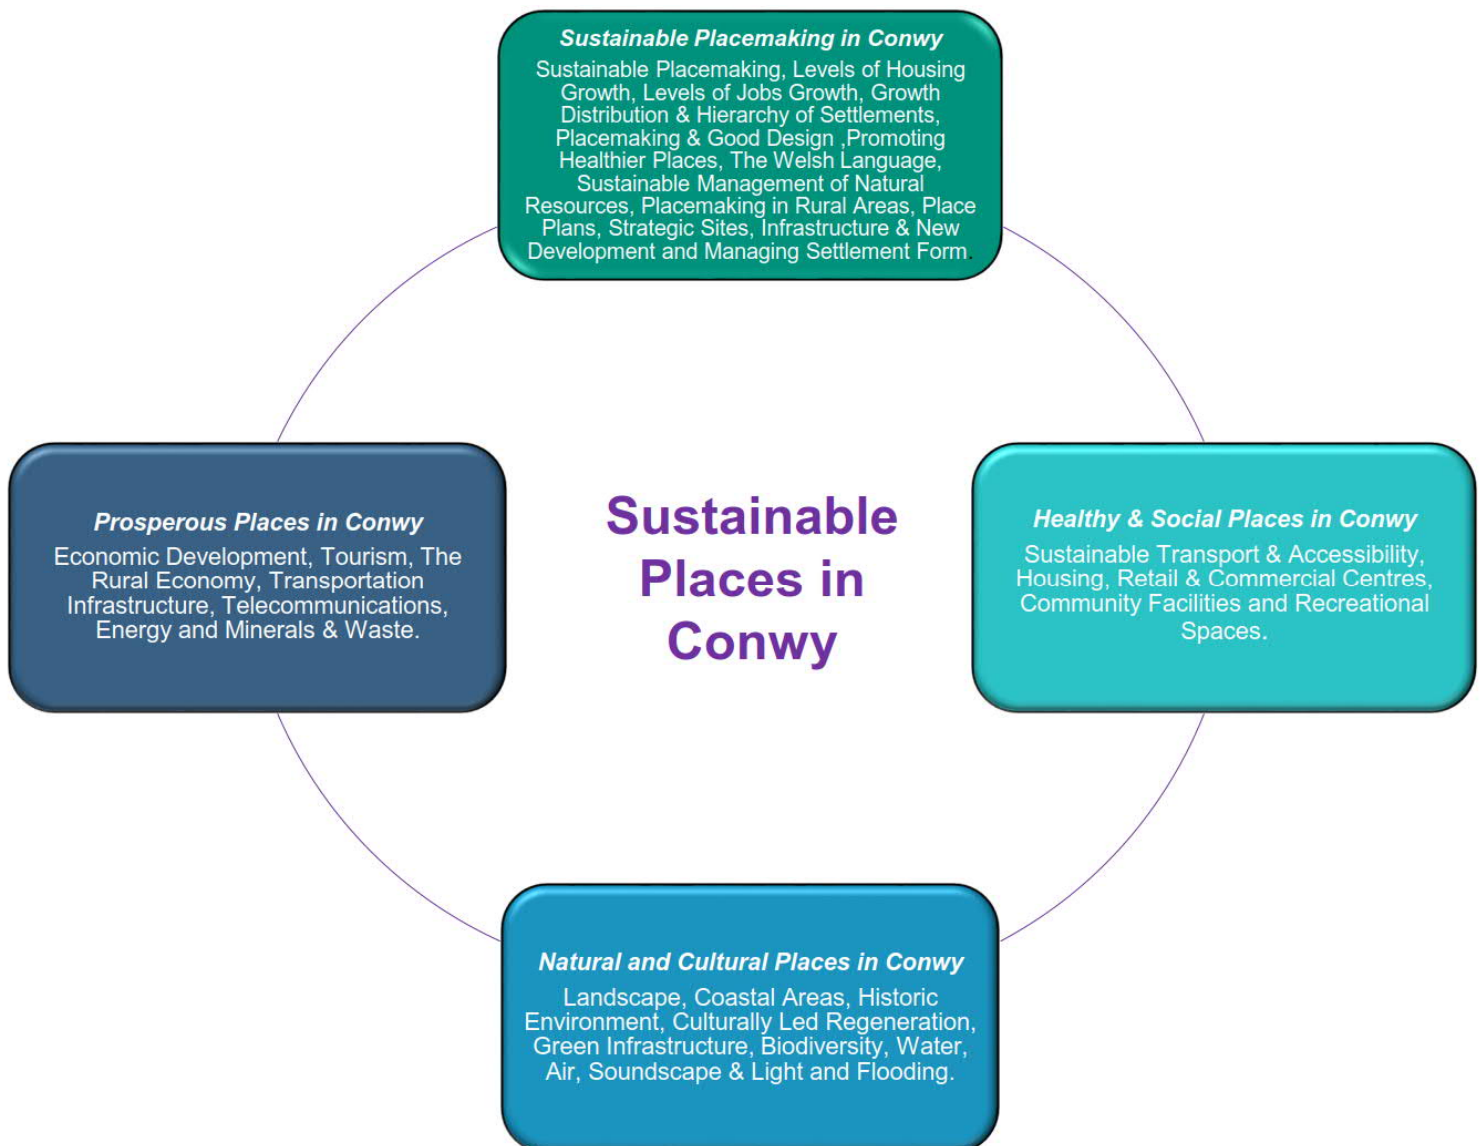

The Preferred Strategy will focus development in the more sustainable and serviced Urban Settlements and Tier 1 Villages within the Coastal Development Strategy Area (CDSA) and Key Service Centres within the Rural Development Strategy Area (RDSA). More limited local growth and diversification will be promoted in other lesser service settlements. The Preferred Strategy also proposes a new Eastern Regeneration and Improvement Area (EIRA) to recognise the high level of constraints (e.g. flooding) within the east of the County Borough.
